TEMPERATURE	<b>200°C/ 320°F</b>	<b>200°C/ 390°F</b>
TIME	<b>20 sec. without fleece 30 sec. with fleece</b>	<b>20 sec. without fleece 30 sec. with fleece</b>

**TRANSFERVERARBEITUNG:**

- Place the textile on the lower plate.
- Place **FOREVER Five Star Universal** with the printed side faced down onto the T-Shirt.
- Put fleece on top, if available.
- Press with the parameters above.
- Remove the transfer paper immediately.  
 (Never take the T-Shirt off the press before the transfer paper has been peeled off.)
- For a softer touch stretch the garment into the width.

**WASHING:**

- Up to 60°C

**IRONING:**

- When ironing cover the print with baking paper

Before starting a **mass production**, we recommend to make **transfer and washing test** with **all materials**.

**Important advice for double-sided printing on textiles:**

T-Shirts for a **double-sided print** (frontside & backside), has to be put over the lower heat plate. In this case only one side will be treated with heat and you avoid that the applicated design from the other side will be pressed out again.

If your T-Shirt is yellowing, lay a piece of fleece onto it during the transfer process.
